To Whom It May Concern:

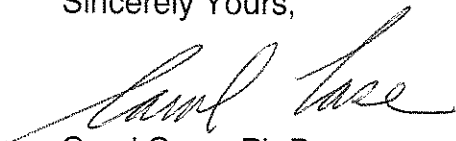

I have known Jacques Weber for seven years, first as an I.B. diploma candidate and then later as a colleague who has taught next door to my office for the last two ½ years. I have had many opportunities to observe Jacques' teaching and interacting with students and I have been impressed with his ability to communicate with students of all ages and in multiple languages.

Jacques is an excellent teacher, who brings expertise and enthusiasm to the study of languages and inspires his students to meet the challenge of learning a second or third language and to excel in the process. His students sitting for Spanish B and *ab initio* French and Spanish have spoken highly of him and are well prepared for their International Baccalaureate examinations in these subjects.

I am proud of Jacques for he exemplifies all of those qualities most sought after in an International Baccalaureate teacher and a colleague. He is cooperative and relates well to others.

I highly recommend him to you.

Sincerely Yours,

Carol Case, Ph.D.,
I. B Coordinator
